SHEMER ARIZONA
ARTS FESTIVAL
DEADLINE:
Friday, Oct. 31

October 2017

Greetings!

Arizona! That is what is on our minds here at the Shemer Art Center this month, as we are enjoying our current *Arizona: From the Outside* exhibition. On display are over 60 works of art, each of which showcase the beautiful state we live in, as depicted by Arizona artists! We are also thinking "Arizona" as we are preparing for our **Shemer Arizona Arts Festival**, planned for November 4 & 5, which will feature artists from all over the state plus some amazing "Arizona" celebrities (more information to follow next week!) Additionally we are finalizing plans for our **Shemer Honors** event, to be held Friday, November 17, which each year recognizes an Arizona artist who has achieved great success in his or her career and also made an impact in our state! An inspiration to all Arizona artists, our 2017 honoree will also be announced next week!

Last, but not least, this month we are pleased to introduce you to Nancy Kravetz and *Inspired by Nature*, her solo exhibition of contemporary paintings and collages.

Thank you again to all who attended and participated in our **Furry Friends Fine Arts Festival** September 16! You helped to make our second year event twice as successful as our first, and we already have in

NOW SHOWING!
SOLO EXHIBITION: ARTIST NANCY KRAVETZ

INSPIRED BY NATURE
October 3 - 27, 2017

The Shemer Art Center is pleased to introduce *Inspired by Nature*, a new solo exhibition of Contemporary Paintings and Collages by Nancy Kravetz, now on display through October 27!

"Beginning" by Nancy Kravetz

Kravetz says the inspiration for much of her work is rooted in nature and comes from visual and emotional reactions to what she sees and feels.

"The sea shore, mountains, forests, desert, farmlands, and aspects of our environment as small as rocks, shells and flowers, and as large as the Grand Canyon and our urban landscapes, often capture my imagination. Equally the subtle and impressive changes in light, shadows and colors related to time of day, seasons and weather add to the inspiring elements that may find expression in many of my paintings, collages and watercolors."

Artist Reception October 19, 6-8 p.m
